Modifications

- Modified course description on NRS 100 Introduction to Vocational Nursing to allow either Social Security Card or Tax ID Number for entrance into program, effective fall 2023. New language underlined and italicized below. - 7/6/23
 - NRS 100: Prerequisite: An active Certified Nursing Assistant (CNA) Certificate issued by the California Department of Public Health (CDPH). Strongly recommended: ENGL 101. Fundamental skills needed for health related occupations. Includes medical terminology, medical math, the application of computers to health care, techniques and learning tools to evaluate scientific readings, field study and exposure to health career opportunities. Offered for Pass/No Pass grading only. This is a prerequisite course that may qualify a person entry into the Vocational Nursing Program.

If selected to enter the Vocational Nursing Program, students must be able to show: 1. U.S. High School diploma or equivalent; 2. Social Security Card or Tax ID number (TIN). 36 lecture hours, 54 lab hours.

- Removed deactivated course RNRS 192 from prerequisites on RNRS 193 Pediatric Nursing and RNRS 195 Beginning Medical/Surgical Nursing II, effective spring 2024. - 10/26/23
- Revised prerequisites on DENT 203 Dental Practice Experience from "DENT 102, DENT 122, DENT 124, and DENT 201" to "DENT 102, DENT 122, DENT 201, and DENT 202," effective spring 2024. - 11/15/23

New

- MUSP 202 approved to start fall 2023. - 7/6/23
 - MUSP 202 Competitive Collegiate Tenor Bass Ensemble: Prerequisite: Audition. This course involves preparation and participation in collegiate Tenor Bass chorus competitions and festivals such as the CSU Long Beach Choral Festival, the Riverside City College Choral Festival, or the Biola University Choral Festival. This course may be taken four times. Audition required. 18 lecture hours, 18 lab hours arranged.
- DENT 300 approved to start summer 2024. - 7/11/23
 - DENT 300 Orthodontic Assistant Permit: Prerequisite: Possession of a current, valid California Registered Dental Assistant license. This course is designed to provide advanced education in orthodontic assistant duties that are described in the California Dental Practice Act and is designed for students who are current Registered Dental Assistants. This course meets the didactic, laboratory, and clinical requirements set forth by the Dental Board of California Orthodontic Assistant Permit (OAP) course approval requirements to qualify to take the orthodontic assistant dental board exam. Students must present a Registered Dental Assistant License, Hepatitis B immunization, negative TB test dated no earlier than 1 year of course start date, current American Heart or Red Cross BLS/CPR certification for health care providers, prior registering. 24 lecture hours, 28 lab hours, 32 lab hours arranged.
- NC 504, 505, 690, 691 and 905 approved to start spring 2024. - 9/20/23
 - NC 504 Social Skills for Success: This course is designed for adults with disabilities. It supports students who desire to achieve success in personal, academic, and professional settings. Emphasis is on development of effective skills related to communication, self-advocacy, appropriate social interaction, adaptation, and problem-solving. 24 lecture hours.
 - NC 505 Skills for Career Success: This course is designed for adults with disabilities. It supports students by providing the knowledge, skills, and guidance to find the job that best matches their personality. Emphasis is on identifying individual strengths, interests, and values; and developing a person-centered, individualized vocational plan. Topics include exploring careers, community job resources, and building the self-confidence, attitudes and professional skills needed to find, secure, and maintain employment. 24 lecture hours.
 - NC 690 Bloodborne Pathogens: Strongly recommended: High intermediate or advanced English language skills; grasp of paragraph form and PowerPoint presentation. The Blood Borne Pathogens (BBP) training is mandated by the Occupational Safety and Health Administration (OSHA). It includes training in the most common bloodborne pathogens, control methods, and follow

up from occupational exposure to blood and Other Potentially Infectious Materials (OPIM). After completing this class, the student will receive the recognition of completion of the course. 4 lecture hours.

- NC 691 HIPAA and Introduction to Electronic Health Records: Strongly recommended: High intermediate or advanced English language skills; grasp of paragraph form and PowerPoint presentation. This course focuses on HIPAA (Health Insurance Portability and Accountability Act) for the healthcare worker, and the professional and ethical responsibilities in maintaining privacy when handling EHR (electronic health records). Real-life scenarios will be used when practicing how to input patient information in the EHR and reviewing the Privacy and Security Rules of HIPAA. 18 lecture hours.
- NC 905 Body Contouring: This course is designed to focus on total body conditioning to reach desired body potential through improved muscle strength, endurance, flexibility, core stability, and balance in the application of sound training principles. 36 lab hours.
- NC 110 approved to start summer 2024. - 1/22/24
 - NC 110 Drone Applications in Public Safety: Introduction to drone applications in public safety and advanced hands-on drone flight training. Students will acquire knowledge in thermal camera systems, autonomous drone systems and skills in FPV flight and aerial photography for use in search and rescue operations, firefighting, law enforcement and emergency operations. Instruction on current UAS regulations, safety and flight crew protocol will also be covered. 24 lecture hours.
- NC 705 and NC 706 approved to start summer 2024. - 4/2/24
 - NC 705 Art - Still-Life Drawing for Older Adults: This art course is designed especially for older adults who wish to develop or enhance their drawing skills. The focus will be on direct observation of still-life compositions and application of the building blocks used by artists to create a work of art. Students will develop perceptual skills and apply them to create original still-life drawings from direct observation. Drawings will be created by understanding the elements of art, then applying them to create an original still-life drawing. 16 lab hours.
 - NC 706 Art - Portrait Drawing for Older Adults: This art course is designed especially for older adults who wish to develop or enhance their drawing skills. The focus will be on drawing the human face. Students will view artwork by seven Old Masters and contemporary artists for inspiration in their own portraits of family and friends. Demonstration and instruction will include studying and drawing the human face. Students will develop perceptual skills and apply them to create original drawings from direct observation and photos. Drawings will be created by understanding the elements of art, then applying them to create a drawing. 16 lab hours.
